THE POWER OF NATURE

delivered by advanced technology

- TAILORED TREATMENTS WITH GLOW SERUMS
- ADVANCED SERUM DELIVERY TECHNOLOGY
- A PROFITABLE SOLUTION
- INSTANT AND VISIBLE RESULTS

VENUS GLOW

The Venus Glow™ with Glow Serums combines the power of nature with advanced technology to deliver both financial and aesthetic results. It utilizes a powerful tri-modality treatment which consists of an adjustable vacuum, 360-degree rotating tip, and two ultra-fine powerful jet streams of the preferred Glow Serum(s) that simultaneously opens up, deep cleans, and treats pores for a glowing complexion. The Venus Glow™ treatment can be performed as an effective stand-alone treatment or will complement other aesthetic procedures offered to patients.

TAILORED TREATMENTS WITH GLOW SERUMS

Glow Serums are available in multiple unique formulations to address a wide range of skin conditions. Treatments consists of a two-step protocol to achieve superior pore cleansing and dermal renewal*.

ADVANCED SERUM DELIVERY TECHNOLOGY

The Venus Glow™ is easy to use with its adjustable tip rotation, suction, and jet stream power, which enables the technician to customize the treatment to suit the patient's skin condition, and promotes enhanced absorption of nutrients.

INSTANT AND VISIBLE RESULTS

Skin feels noticeably healthier, cleaner, and more hydrated after each treatment.

RELAXING PATIENT EXPERIENCE

A comfortable treatment experience where patients can return to normal activities immediately after with a glowing complexion.

A PROFITABLE SOLUTION

Venus Glow™ with Serums is a great investment, sustained through low consumable costs and Venus Concept's unique business model, which optimizes return on investment. The Venus Glow™ with Serums treatment is a perfect stand-alone offering or as a complement to other aesthetic services.

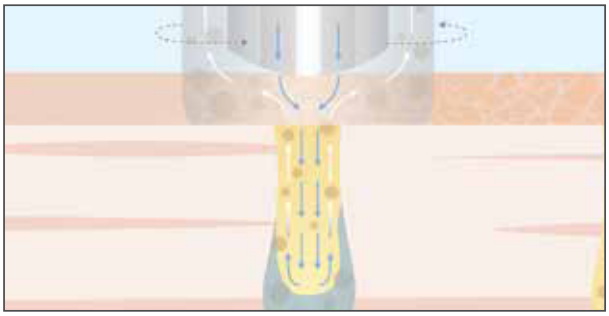

VENUS GLOW

THE VENUS GLOW™ DIFFERENCE

The Venus Glow™ with Serums treatment harnesses the power of nature through an advanced ingredient profile, combined with innovative serum delivery technology to provide patients with superior pore cleansing and dermal renewal. The Venus Glow™ device works with one lightweight applicator that uses a tri-modality dermal system consisting of an adjustable vacuum, 360-degree rotating tip, and two ultra-fine powerful jet streams infusing specially formulated Glow Serums onto the skin.

VACUUM AND 360° ROTATING TIP

The vacuum gently pulls the skin to open up pores by removing impurities from the stratum corneum. While the skin is being pulled upward, the tip spins 360-degrees to evenly spread the preferred Glow Serum that the fine jet streams strongly expel. The vacuum increases local micro-blood circulation while the spinning tip micro-massages the skin to increase the spread of nutrients released from the bloodstream.

TWO POWERFUL JET STREAMS OF GLOW SERUMS

Each jet stream is finer than an average strand of hair. It measures only 70 microns, which is smaller than the average pore size, enabling the Glow Serums to reach into the depth of the pore, and promotes enhanced absorption of the nutrients.

INTRODUCING GLOW SERUMS

The Venus Glow™ with Serums combines the power of nature with advanced technology to deliver both financial and aesthetic results. The device works with one lightweight applicator that uses a tri-modality dermal system consisting of an adjustable vacuum, 360-degree rotating tip, and two ultra-fine powerful jet streams infusing specially formulated Glow Serums onto the skin. Treatments are easy to perform, relaxing, and customizable to the patient's skin condition. The advanced ingredient profile of our specially formulated Glow Serums can address a wide range of common skin concerns, and are ideal for multiple skin types, including sensitive skin. The Venus Glow™ is a perfect stand-alone treatment or can complement and enhance other aesthetic procedures offered to patients.

STEP ONE: CLEANSING & PREPARATION

GLOW**SKINPREP** FOR CLEAN SKIN

A gentle cleansing, exfoliating and skin prepping solution. Formulated with appropriate concentrations of lactic acid to cleanse, brighten and prepare the skin for other Glow Serum treatments or other aesthetic procedures.

STEP TWO: TREATMENT SERUMS

GLOW**ASTRA** | FOR BRIGHTER SKIN

Skin brightening antioxidant serum, formulated with natural plant extracts and powerful Vitamin C to enhance and maintain skin tone, texture and brightness.

GLOW**SANA** | FOR PROTECTED SKIN

Skin protecting serum rich in antioxidants with powerful plant extracts known to slow down aging of the skin while providing protection from free radical damage. Protects, improves firmness and elasticity of the skin.

GLOW**NOVA** | FOR YOUTHFUL SKIN

Anti-aging serum containing amino acid peptides known to help reduce the appearance of fine lines and wrinkles. Peptides enhance texture, strength, and resilience of the skin. Added benefits of plant extracts known to detoxify and aid collagen production.

GLOW**CLARA** | FOR CLEAR SKIN

Calming and soothing serum designed to reduce redness and irritation. Contains peptides to diminish blemishes and redness. Added plant extracts that contain antioxidant properties known to boost skin's repair system.
